

Landscaping Bark

A mid-dark brown, multi-purpose grade bark mulch derived from forestry woodchip. This is a natural product that will enhance and protect any garden or landscaping project.

Consistent appearance

- Mid-dark brown colour
- Type of bark: Mixed conifer
- Particle size: 8-40mm
- Maximum white wood (trunk) content by volume 25%

Inhibits weed development

- Reduces ongoing maintenance requirements

Extends plant life

- Retains moisture, reducing the need for watering
- Insulates plant roots in cold weather

Safe and easy to use

- Free flowing
- Easy to barrow and rake out
- Free of chemical contamination
- Typical pH range 4.5 to 7.0

Sustainable

- Rolawn bark products are from Forest Stewardship Council® approved sources

Size and coverage

Bag Size: approx. 1m³
(1000 litres) when packed

Coverage: up to 20m²
at a depth of 50mm

The mark of responsible forestry

Rolawn bark is of a consistent high quality and comes from Forest Stewardship Council® (FSC) approved sources. The FSC® label means that materials used for the product have been responsibly sourced (www.fsc.org | FSC-C147081).

Rolawn is certified to BS EN ISO 9001:2015 and BS EN ISO 14001:2015 demonstrating that our processes and systems meet standards that enable us to deliver high-quality products and services to meet customer needs in a responsible manner.
