

Vegetable & Fruit Topsoil

A slightly heavier fertile, peat-free, friable topsoil which is blended with additional organic matter to ensure consistent growing results. It is suitable for a wide range of edible crops in any planting format.

Consistently performs

- Typically classed as a 'Sandy Loam'
- Organic content typically 11%
- Mix of topsoil and soil conditioners suitable for growing a variety of vegetables and fruit
- Ideal for raised beds and containers

Light, friable and easy to use - even in wet conditions

- Minimal stone content - screened to 20mm

- Convenient bulk bags minimise waste and mess and are easy to store

Safe

- Certified to BS3882:2015 as suitable for residential home-grown use
- Responsibly sourced, traceable contents
- Does not contain manures which can be variable and in some instances, potentially harmful

Size and coverage

Bag Size: approximately 1m³ (1000 litres) when packed

Coverage: up to 20m² at a depth of 50mm

Please note:

For certain crops such as tomatoes and courgettes, which require a higher nitrogen supply, levels should be supplemented by the grower.

As Britain's leading supplier of high-quality topsoils, we ensure that they are tested to the most stringent safety standards. As a result, they are certified to the latest British standard (BS3882:2015) as suitable for residential home-grown use.

Rolawn is certified to BS EN ISO 9001:2015 and BS EN ISO 14001:2015 demonstrating that our processes and systems meet standards that enable us to deliver high-quality products and services to meet customer needs in a responsible manner.
